

BBCC - Ad Hoc Survey Vetting Process

To manage the number of surveys students receive from Big Bend and gain information that will inform decision-making to improve the student experience, BBCC will implement a survey vetting process. All Ad Hoc surveys that are not on the regularly scheduled inventory will go through this process.

The Data Committee will review survey proposals (quarterly or monthly) and provide feedback on survey questions, whether there is another way to gather the information, and if there is another survey that can be modified to include questions being proposed to reduce the number of surveys being sent to students, faculty or staff.

* 1. What is the purpose of your survey?

- ☐ Improve the student journey
- ☐ Empower faculty and staff to better support students
- ☐ Provide information to inform decisions
- ☐ Other (please specify)

* 2. What information are you trying to gather and/or what challenge are you confronting?

* 3. Upload your questions
